

ABOUT

Full stack engineer with 3.5+ years shipping end-to-end SaaS and fintech products across React, Next.js, Node.js, PostgreSQL, and MongoDB. Own the full delivery cycle from schema design and REST API architecture to pixel-perfect UI and Vercel/Cloudflare and GCP deployment. Built and deployed a production AI financial advisor using LLM function calling, JSONB session memory via Postgres, and RAG with pgvector direct API calls, no framework wrappers. Finance domain knowledge is a genuine edge on data-heavy products.

PROJECTS

WealthifyX.com

Next.js · TypeScript · Node.js · PostgreSQL · Prisma · OpenAI API · pgvector

Financial calculator suite with a production AI advisor agent, built and run solo

- Built full stack end-to-end: Next.js + TypeScript frontend, Node.js + Express API, PostgreSQL schema, Prisma ORM, deployed on Vercel
- Implemented AI advisor using LLM function calling agent selects the right calculator tool, runs the math, returns specific numbers instead of generic advice
- Built session memory via Postgres JSONB: agent extracts user financial profile on first input and never requests the same data twice across sessions

Finovian.com

Astro · Sanity v3 · TypeScript · Tailwind CSS · Cloudflare Pages

Semiconductor and AI infrastructure analysis platform, ranks on Google.

- Built and run solo: content architecture, Sanity CMS schema design, SEO, schema markup, IndexNow API submission, and Cloudflare WAF configuration all from scratch
- Public falsifiable track record with measurable predictions tied to real earnings events primary trust differentiator for retail investors
- Achieved above 90+ Lighthouse across all routes via full SSG pipeline in Astro

SlotTurf.com

Next.js · TypeScript · Node.js · PostgreSQL · Prisma · Razorpay · OTP Auth

Turf booking SaaS platform with scheduling, payments, OTP auth, and admin dashboard

- Designed PostgreSQL schema and built full REST API: slot availability, booking creation, conflict resolution, and user auth
- Implemented OTP auth with expiry and rate limiting, and Razorpay payment integration including webhooks for booking confirmation
- Built responsive booking UI and admin dashboard in Next.js owners can manage slots, view bookings, and update availability in real time
